THINK OF IT! A Guaranteed Tire For \$1.00

With the co-operation of the world's largest and most powerful organization to distribute leading makes of tires and who own a chain of tire stores which extend right through the whole country, we are able to hold the sensational sale of tires and tubes which is now in progress.

This Sale Gives the High Cost of Motoring a Tremendous Wallop

You have the opportunity of buying best known, most widely advertised makes of tires and tubes at \$1 each provided you buy an extra tire or tube at the regular list price. This practically gives you two tires or two tubes for the regular price of one. The event is unparalleled and one that surely will not be repeated for a long, long time when the sale comes to an end.

Buy tires now. Buy tires and tubes now. Remember the summer season is only half over and the best motoring time of the whole year is still before you—and you know that motoring is a pleasure which can be enjoyed well into the winter months.

Another reason why you should buy now: The Interstate Commerce Committee has increased freight rates 40% and this increase becomes effective before the first of September which means that after the first of September tires will have to be priced higher.

Take Full Advantage of This Sale—You Will Thank Us Later

For Example The regular price for a Batavia, size 30x3, is \$21.00 and the regular retail price for a Firestone Tube, 30x3 is \$3.15. If you buy one of each at these prices, we give you an additional tire for \$1.00 and an additional tube for \$1.00. The same applies to other makes and all size of any tire or tube we carry in stock.

This Event Will Command the Immediate Attention of Every Man and Woman Who Owns An Automobile of Any Make

Not only will this sale appeal to the owners of pleasure cars, but likewise to the men who use automobiles for commercial purposes, as tires of every type for vehicles of all kinds are included.
